

PRODUCT CERTIFICATE

FOR

INDIRECT FOOD CONTACT – WATER ACTIVATED PAPER TAPE

IT IS TO CERTIFY THAT OUR WATER ACTIVATED PAPER TAPE PRODUCTS MEET THE GUIDELINES SET FORTH BY FDA FOR INDIRECT FOOD CONTACT.

21 CFR 175.105 (a)(2) – This regulation describes when the tape adhesive is separated from the food by a sufficient functional barrier, and when used as intended, these tapes are considered safe in applications such as labeling and sealing cartons that contain already appropriately wrapped and packaged food items and for use as a component of articles that are intended for use in packaging, transporting, or holding of food.
